

Interested in Becoming Involved in ABC?

If you are currently working in the orthotic, prosthetic and pedorthic profession and would like to be active with the American Board for Certification in Orthotics, Prosthetics and Pedorthics...*we want you!*

There are many opportunities for you to be involved. If you have a little extra time, we have small projects or tasks in which you could participate. These include writing questions for the certification exams in your discipline, being a sounding board for marketing ideas or participating in targeted surveys throughout the year.

If you have more time, perhaps you could participate on a committee that deals with facility accreditation specific to your area of expertise, be part of an exam team in your discipline, join the application review committee or contribute your expertise to marketing and public relations.

There are many opportunities for you to be involved with ABC. Let us know that you are interested and together we can explore these activities. Contact ABC at info@abcop.org and let us know that you want to give back to your profession!
